

DAISY SUTTON, LU YINGQI, LAURA KNOWLES,
KELSEY LEAK-WHITE, EZGI HALIT

Story Board

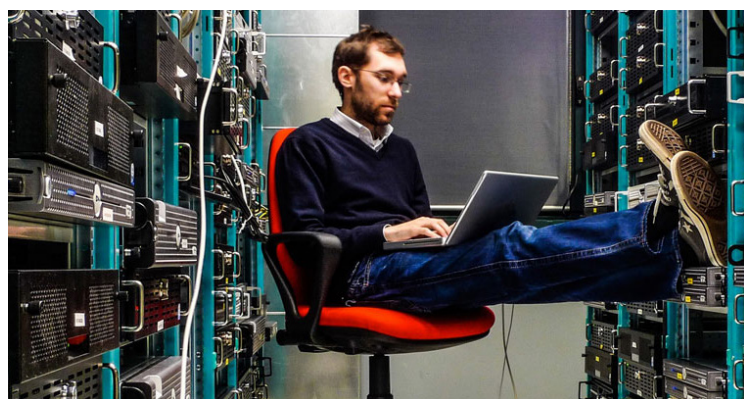

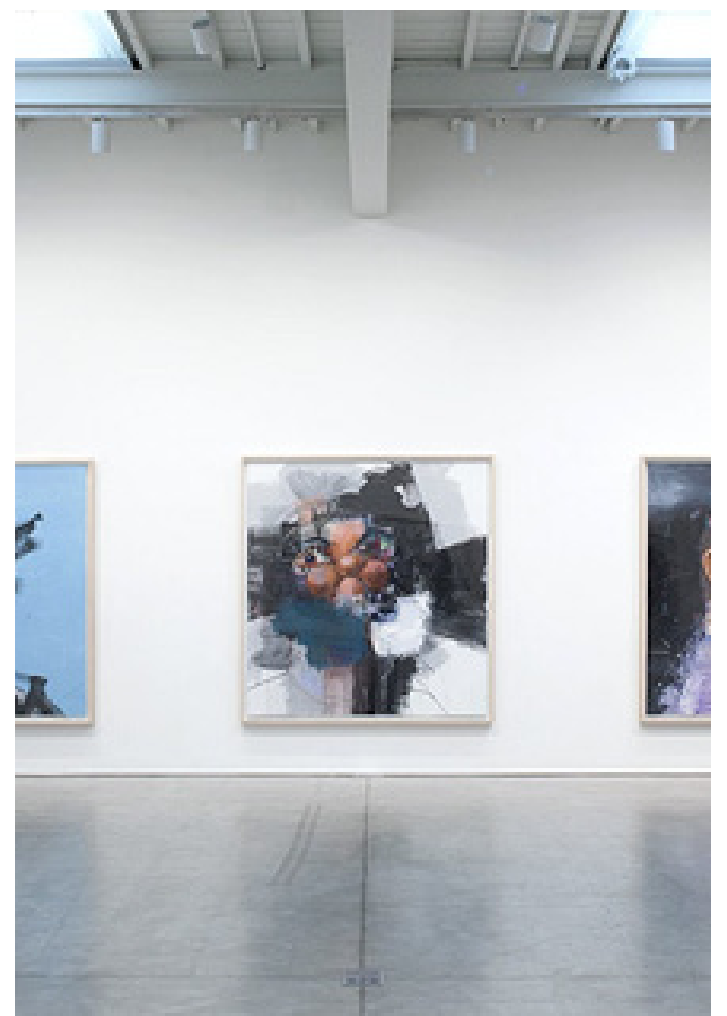

This room is purposely aimed at a young couple with a child who live a busy, entertaining lifestyle.

The room is designed for a couple in their 30s with a 4 Year Old child. Craig and Melissa met at Sheffield Hallam University. Craig studied IT and computing whereas Melissa studied plant biology and went onto become a botanist. After Melissa spent 3 years in her graduate job she wanted to change her passion for plants into a lifestyle and opened up her own florist. Later on Craig and Melissa became parents to Noah who is now 4 years old.

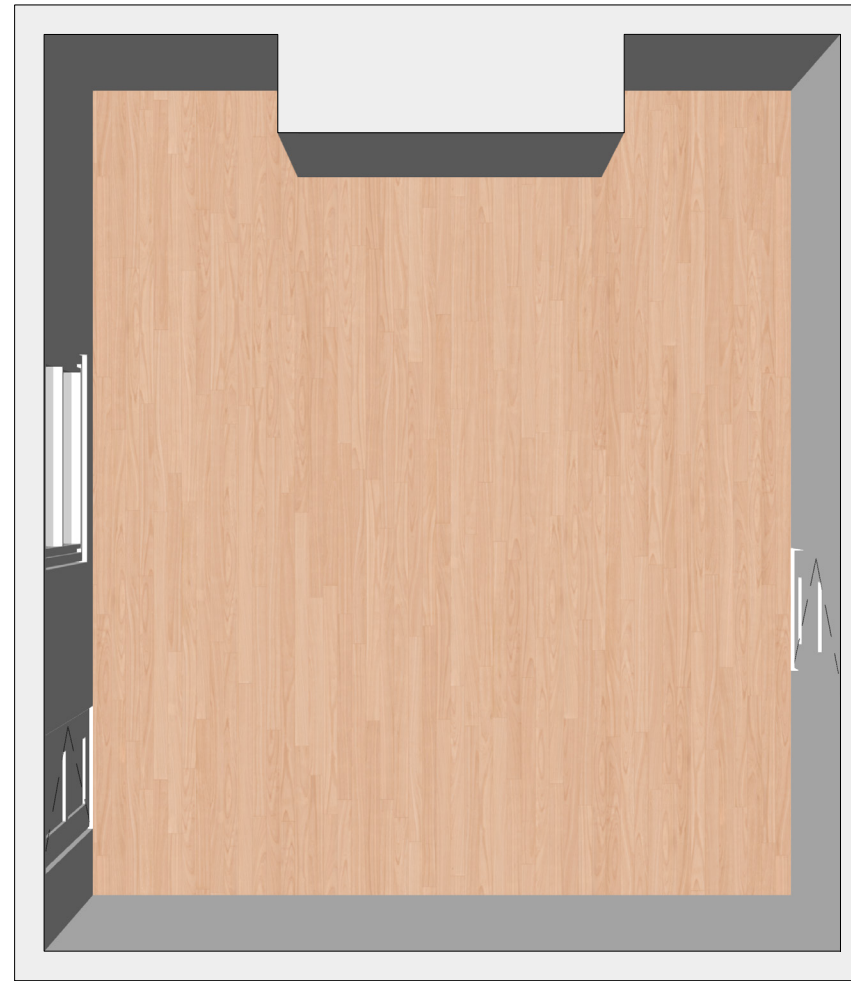

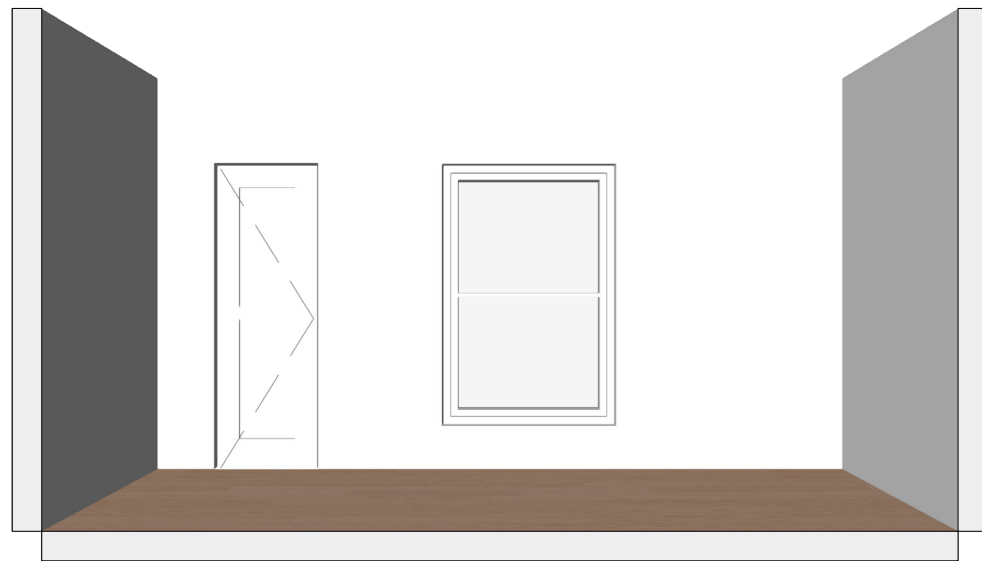

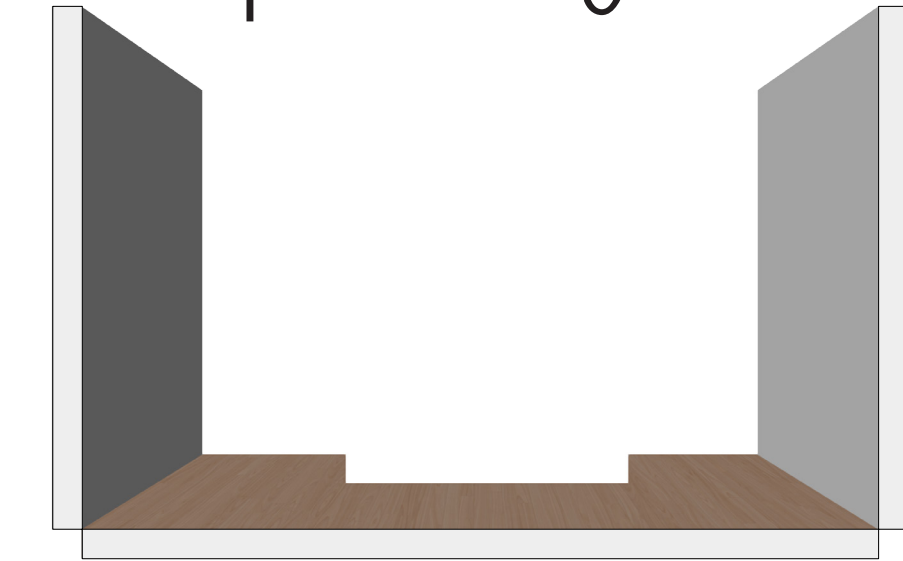

In a day to day life, Craig works as an IT specialist and Melissa works part-time at her florist whilst Noah is in pre-school. In their spare time they like to visit art galleries and enjoy modern art. They also enjoy going to Jazz nights and having friends round for Jazz and wine nights. To get away from their hectic lifestyles the family enjoy hiking holidays and seeing the worlds peaks, whilst on their travels they get their inspiration of their dream home from all the places they have visited, this ties in with their relaxing, playful, entertaining lives.
