Tapapa Comic Bookshop

Design Brief & Concept:

Spanish-style comic books and illustrations like to use strong colour elements to reflect their passion and unrestrained personality. Before I had a opportunity to travel in Barcelona, Spain. During this time, I completely fell in love with the culture of this country.

Tapapa as a Spanish-style comic bookstore in Sheffield, which is a fantasy space surrounded by comic bookshelves and the center of each floor is connected by two large transparent bookshelves and elevators. This is a versatile comic bookstore offering coffee, dessert, seating area and postcard making services.
